Election of the chairperson in the absence of the mayor and deputy mayor

- 6.3 If no chairperson is present at a meeting of the council at the time designated for the holding of the meeting, the first business of the meeting must be the election of a chairperson to preside at the meeting.
- 6.4 The election of a chairperson must be conducted:
- (a) by the general manager or, in their absence, an employee of the council designated by the general manager to conduct the election, or
 - (b) by the person who called the meeting or a person acting on their behalf if neither the general manager nor a designated employee is present at the meeting, or if there is no general manager or designated employee.
- 6.5 If, at an election of a chairperson, two (2) or more candidates receive the same number of votes and no other candidate receives a greater number of votes, the chairperson is to be the candidate whose name is chosen by lot.
- 6.6 For the purposes of clause 6.5, the person conducting the election must:
- (a) arrange for the names of the candidates who have equal numbers of votes to be written on similar slips, and
 - (b) then fold the slips so as to prevent the names from being seen, mix the slips and draw one of the slips at random.
- 6.7 The candidate whose name is on the drawn slip is the candidate who is to be the chairperson.
- 6.8 Any election conducted under clause 6.3, and the outcome of the vote, are to be recorded in the minutes of the meeting.

BACKGROUND

The Monthly Technical Services report has been identified by Council as the process of reporting the activities carried out monthly by the Technical Services Department.

COMMENT

Warialda CBD Park

Works have been ongoing at the Warialda CBD Park with the backfill of the site to natural level now complete. The timber fence between the park and the Post Office is in the process of being erected.

Negotiations are underway with Telstra and the Department of Communities and Justice for the acquisition of land for the footpath to join the CBD park with Stephen Street.

Warialda CBD Park

IB Bore Road Upgrade

The IB Bore Project is complete, with the entire length in Gwydir Shire now bitumen sealed, line marked and signposted. This project was delivered within 0.5% of the \$11.54million, with the total cost to Council approximately \$60,000.

IB Bore Road

County Boundary Road Upgrade

The County Boundary Road sealing project is jointly funded by the Federal Government's Roads of Strategic Importance (ROSI) Program (\$9.75 million) with Council contributing an additional \$2.44 million.

The road construction is divided up into 4 stages with Stage 3 construction works by Council staff well underway and expected to be sealed in early November 2024. It is expected that the 12.3 km long project will be completed by April 2025.

Croppa Creek Road Rehabilitation

This project is jointly funded by the State Governments Restart NSW Fund (\$7.057 million) with Council contributing \$200,000 and DRFA flood damage funding of \$500,000. The Restart NSW Fund was established in 2011 to enable the funding and delivery of high priority infrastructure projects that improve economic growth and productivity.

Work has commenced on this project with the replacement of five causeways on Croppa Creek Road well underway. This work was awarded via public tender to Finn Valley Plant and Civil Pty Ltd from Heatherbrae NSW. This company has completed two construction projects previously for Council and has provided good service. The contractor is currently dealing with concrete supply and quality issues however works are progressing and expected to be completed by January 2025.

Croppa Creek Road, Floodway 5 cut off walls

Bingara Administration Building Site Earthworks

Engineering staff have commenced filling the site in preparation for the start of the construction of the building. This work has been delayed and is expected to be completed by 30 November 2024.

Maintenance

General maintenance continues on Regional and State roads, including vegetation control, slashing, whipper snipping and spraying of guideposts and guard rails and sign maintenance.

Seal maintenance is ongoing on all State, Regional and Local Roads as potholes continue to develop.

All parks and gardens continue to be maintained by Council staff. Mowing, weed control, irrigation, hedging, and trimming are routinely undertaken as well as daily cleaning of public toilets. Staff continue to maintain our sporting fields and facilities for use of various sporting groups and schools. Management Plans are currently being developed for Gwydir Oval, Warialda Recreation Ground and Nicholson Oval with completion and implementation by January 2025.

Heavy Patching

Two major defects on North Star Road and Warialda Road were repaired in October.

Warialda Asset Protection Zone maintenance

Contractors have completed the first slash of the season for the Warialda APZ. It is expected that the APZ will be slashed up to five times over the bushfire season depending on weather conditions.

Roads Maintenance Council Contract – Works Orders issued by TfNSW

All Work Orders issued by Transport for New South Wales (TfNSW) are quality assurance schedule of rates projects carried out by Council staff under the Roads Maintenance Council Contract with TfNSW.

Works Proposals and documentation have now been completed and submitted for future Ordered works this financial year, such as heavy patching and the Wendouree Rehabilitation Project on MR63 Fossickers Way, just south of Bingara. Heavy

patching works have been postponed and are now programmed to start the first week in November, followed by the Bitumen Resurfacing Program once heavy patching has been completed, late December. Seal designs are still being prepared by Roadwork Industries before a Works Proposal can be submitted.

This year saw the selection of Roadwork Industries again for the bitumen resurfacing program through Local Government Procurement, where contract approval from Council is not required. Wendouree drainage works are also scheduled to start the first week in November and still completed by the end of this year, with a view of bringing in the pavement crew after the Christmas break. Works will include box culvert and pipe extensions, pavement widening, a pavement overlay and upgraded guardrail infrastructure.

Routine maintenance continues each week undertaking inspections, rest area services, vegetation control, guardrail repairs and bitumen repairs.

Water and Sewer

Water and Sewerage operators carry out routine operational tasks such as water testing, grounds maintenance at the water treatment plants, reservoirs, both sewerage treatment plants, sewer pump stations, Warialda truck wash and truck wash ponds.

Reactive maintenance includes service line repairs, water main breaks and sewer blockages. All tasks are recorded and entered into a central database. The database is used to identify common failures areas for planning of repairs. The database is used for asset condition rating and is used to collate annual performance reports for the NSW Government.
