PART 1 Introduction

This *Model Code of Conduct for Local Councils in NSW* (“the Model Code of Conduct”) is made under section 440 of the *Local Government Act 1993* (“LGA”) and the *Local Government (General) Regulation 2005* (“the Regulation”).

The Model Code of Conduct sets the minimum standards of conduct for council officials. It is prescribed by regulation to assist council officials to:

- understand and comply with the standards of conduct that are expected of them
- enable them to fulfil their statutory duty to act honestly and exercise a reasonable degree of care and diligence (section 439)
- act in a way that enhances public confidence in local government.

Section 440 of the LGA requires every council (including county councils) and joint organisation to adopt a code of conduct that incorporates the provisions of the Model Code of Conduct. A council’s or joint organisation’s adopted code of conduct may also include provisions that supplement the Model Code of Conduct and that extend its application to persons that are not “council officials” for the purposes of the Model Code of Conduct (e.g. volunteers, contractors and members of wholly advisory committees).

A council’s or joint organisation’s adopted code of conduct has no effect to the extent that it is inconsistent with the Model Code of Conduct. However, a council’s or joint organisation’s adopted code of conduct may prescribe requirements that are more onerous than those prescribed in the Model Code of Conduct.

Councillors, administrators, members of staff of councils, delegates of councils, (including members of council committees that are delegates of a council) and any other person a council’s adopted code of conduct applies to, must comply with the applicable provisions of their council’s code of conduct. It is the personal responsibility of council officials to comply with the standards in the code and to regularly review their personal circumstances and conduct with this in mind.

Failure by a councillor to comply with the standards of conduct prescribed under this code constitutes misconduct for the purposes of the LGA. The LGA provides for a range of penalties that may be imposed on councillors for misconduct, including suspension or disqualification from civic office. A councillor who has been suspended on three or more occasions for misconduct is automatically disqualified from holding civic office for five years.

Failure by a member of staff to comply with a council’s code of conduct may give rise to disciplinary action.

Note: References in the Model Code of Conduct to councils are also to be taken as references to county councils and joint organisations.

Note: In adopting the Model Code of Conduct, joint organisations should adapt it to substitute the terms “board” for “council”, “chairperson” for “mayor”, “voting representative” for “councillor” and “executive officer” for “general manager”.

Note: In adopting the Model Code of Conduct, county councils should adapt it to substitute the term “chairperson” for “mayor” and “member” for “councillor”.

- (i) an interest you have arising from the making by the council of a contract or agreement with your relative for, or in relation to, any of the following, but only if the proposed contract or agreement is similar in terms and conditions to such contracts and agreements as have been made, or as are proposed to be made, by the council in respect of similar matters with other residents of the area:

- (d) a person (other than a member of the senior staff of the council) who is a member of a committee of the council identified by the council as a committee whose members are designated persons because the functions of the committee involve the exercise of the council’s functions (such as regulatory functions or contractual functions) that, in their exercise, could give rise to a conflict between the member’s duty as a member of the committee and the member’s private interest.

The person is not required to disclose the person's interest as an adviser.

- (c) the councillor made a special disclosure under clause 4.37 in relation to the interest before the commencement of the meeting.

- (a) be in the form set out in schedule 3 of this code and contain the information required by that form, and
- (b) be laid on the table at a meeting of the council as soon as practicable after the disclosure is made, and the information contained in the special disclosure is to be recorded in the minutes of the meeting.

4.38 The Minister for Local Government may, conditionally or unconditionally, allow a councillor or a council committee member who has a pecuniary interest in a matter with which the council is concerned to be present at a meeting of the council or committee, to take part in the consideration or discussion of the matter and to vote on the matter if the Minister is of the opinion:

- (a) that the number of councillors prevented from voting would be so great a proportion of the whole as to impede the transaction of business, or
- (b) that it is in the interests of the electors for the area to do so.

4.39 A councillor or a council committee member with a pecuniary interest in a matter who is permitted to be present at a meeting of the council or committee, to take part in the consideration or discussion of the matter and to vote on the matter under clause 4.38, must still disclose the interest they have in the matter in accordance with clause 4.28.

PART 5 Non-Pecuniary Conflicts of Interests

What is a non-pecuniary conflict of interest?

- 5.1 Non-pecuniary interests are private or personal interests a council official has that do not amount to a pecuniary interest as defined in clause 4.1 of this code. These commonly arise out of family or personal relationships, or out of involvement in sporting, social, religious or other cultural groups and associations, and may include an interest of a financial nature.
- 5.2 A non-pecuniary conflict of interest exists where a reasonable and informed person would perceive that you could be influenced by a private interest when carrying out your official functions in relation to a matter.
- 5.3 The personal or political views of a council official do not constitute a private interest for the purposes of clause 5.2.
- 5.4 Non-pecuniary conflicts of interest must be identified and appropriately managed to uphold community confidence in the probity of council decision-making. The onus is on you to identify any non-pecuniary conflict of interest you may have in matters that you deal with, to disclose the interest fully and in writing, and to take appropriate action to manage the conflict in accordance with this code.
- 5.5 When considering whether or not you have a non-pecuniary conflict of interest in a matter you are dealing with, it is always important to think about how others would view your situation.

Managing non-pecuniary conflicts of interest

- 5.6 Where you have a non-pecuniary conflict of interest in a matter for the purposes of clause 5.2, you must disclose the relevant private interest you have in relation to the matter fully and in writing as soon as practicable after becoming aware of the non-pecuniary conflict of interest and on each occasion on which the non-pecuniary conflict of interest arises in relation to the matter. In the case of members of council staff other than the general manager, such a disclosure is to be made to the staff member's manager. In the case of the general manager, such a disclosure is to be made to the mayor.
- 5.7 If a disclosure is made at a council or committee meeting, both the disclosure and the nature of the interest must be recorded in the minutes on each occasion on which the non-pecuniary conflict of interest arises. This disclosure constitutes disclosure in writing for the purposes of clause 5.6.
- 5.8 How you manage a non-pecuniary conflict of interest will depend on whether or not it is significant.
- 5.9 As a general rule, a non-pecuniary conflict of interest will be significant where it does not involve a pecuniary interest for the purposes of clause 4.1, but it involves:
 - a) a relationship between a council official and another person who is affected by a decision or a matter under consideration that is particularly close, such as a current or former spouse or de facto partner, a relative for the purposes of clause 4.4 or another person from the council official's extended family that the council official

has a close personal relationship with, or another person living in the same household

- b) other relationships with persons who are affected by a decision or a matter under consideration that are particularly close, such as friendships and business relationships. Closeness is defined by the nature of the friendship or business relationship, the frequency of contact and the duration of the friendship or relationship.
- c) an affiliation between the council official and an organisation (such as a sporting body, club, religious, cultural or charitable organisation, corporation or association) that is affected by a decision or a matter under consideration that is particularly strong. The strength of a council official's affiliation with an organisation is to be determined by the extent to which they actively participate in the management, administration or other activities of the organisation.
- d) membership, as the council's representative, of the board or management committee of an organisation that is affected by a decision or a matter under consideration, in circumstances where the interests of the council and the organisation are potentially in conflict in relation to the particular matter
- e) a financial interest (other than an interest of a type referred to in clause 4.6) that is not a pecuniary interest for the purposes of clause 4.1
- f) the conferral or loss of a personal benefit other than one conferred or lost as a member of the community or a broader class of people affected by a decision.

5.10 Significant non-pecuniary conflicts of interest must be managed in one of two ways:

- a) by not participating in consideration of, or decision making in relation to, the matter in which you have the significant non-pecuniary conflict of interest and the matter being allocated to another person for consideration or determination, or
- b) if the significant non-pecuniary conflict of interest arises in relation to a matter under consideration at a council or committee meeting, by managing the conflict of interest as if you had a pecuniary interest in the matter by complying with clauses 4.28 and 4.29.

5.11 If you determine that you have a non-pecuniary conflict of interest in a matter that is not significant and does not require further action, when disclosing the interest you must also explain in writing why you consider that the non-pecuniary conflict of interest is not significant and does not require further action in the circumstances.

5.12 If you are a member of staff of council other than the general manager, the decision on which option should be taken to manage a non-pecuniary conflict of interest must be made in consultation with and at the direction of your manager. In the case of the general manager, the decision on which

option should be taken to manage a non-pecuniary conflict of interest must be made in consultation with and at the direction of the mayor.

- 5.13 Despite clause 5.10(b), a councillor who has a significant non-pecuniary conflict of interest in a matter, may participate in a decision to delegate consideration of the matter in question to another body or person.
- 5.14 Council committee members are not required to declare and manage a non-pecuniary conflict of interest in accordance with the requirements of this Part where it arises from an interest they have as a person chosen to represent the community, or as a member of a non-profit organisation or other community or special interest group, if they have been appointed to represent the organisation or group on the council committee.

Political donations

- 5.15 Councillors should be aware that matters before council or committee meetings involving their political donors may also give rise to a non-pecuniary conflict of interest.
- 5.16 Where you are a councillor and have received or knowingly benefitted from a reportable political donation:
- a) made by a major political donor in the previous four years, and
 - a. the major political donor has a matter before council,

you must declare a non-pecuniary conflict of interest in the matter, disclose the nature of the interest, and manage the conflict of interest as if you had a pecuniary interest in the matter by complying with clauses 4.28 and 4.29. A disclosure made under this clause must be recorded in the minutes of the meeting.

- 5.17 For the purposes of this Part:
- a) a “reportable political donation” has the same meaning as it has in section 6 of the *Electoral Funding Act 2018*
 - b) “major political donor” has the same meaning as it has in the *Electoral Funding Act 2018*.

- 5.18 Councillors should note that political donations that are not a “reportable political donation”, or political donations to a registered political party or group by which a councillor is endorsed, may still give rise to a non-pecuniary conflict of interest. Councillors should determine whether or not such conflicts are significant for the purposes of clause 5.9 and take the appropriate action to manage them.
- 5.19 Despite clause 5.16, a councillor who has received or knowingly benefitted from a reportable political donation of the kind referred to in that clause, may participate in a decision to delegate consideration of the matter in question to another body or person.

Loss of quorum as a result of compliance with this Part

- 5.20 A councillor who would otherwise be precluded from participating in the consideration of a matter under this Part because they have a non-pecuniary conflict of interest in the matter is permitted to participate in consideration of the matter if:
- a) the matter is a proposal relating to:

- i) the making of a principal environmental planning instrument applying to the whole or a significant portion of the council's area, or
 - ii) the amendment, alteration or repeal of an environmental planning instrument where the amendment, alteration or repeal applies to the whole or a significant portion of the council's area, and
- b) the non-pecuniary conflict of interest arises only because of an interest that a person has in that person's principal place of residence, and
 - c) the councillor discloses the interest they have in the matter that would otherwise have precluded their participation in consideration of the matter under this Part in accordance with clause 5.6.

5.21 The Minister for Local Government may, conditionally or unconditionally, allow a councillor or a council committee member who is precluded under this Part from participating in the consideration of a matter to be present at a meeting of the council or committee, to take part in the consideration or discussion of the matter and to vote on the matter if the Minister is of the opinion:

- a) that the number of councillors prevented from voting would be so great a proportion of the whole as to impede the transaction of business, or
- b) that it is in the interests of the electors for the area to do so.

5.22 Where the Minister exempts a councillor or committee member from complying with a requirement under this Part under clause 5.21, the councillor or committee member must still disclose any interests they have in the matter the exemption applies to, in accordance with clause 5.6.

Other business or employment

5.23 The general manager must not engage, for remuneration, in private employment, contract work or other business outside the service of the council without the approval of the council.

5.24 A member of staff must not engage, for remuneration, in private employment, contract work or other business outside the service of the council that relates to the business of the council or that might conflict with the staff member's council duties unless they have notified the general manager in writing of the employment, work or business and the general manager has given their written approval for the staff member to engage in the employment, work or business.

5.25 The general manager may at any time prohibit a member of staff from engaging, for remuneration, in private employment, contract work or other

business outside the service of the council that relates to the business of the council, or that might conflict with the staff member's council duties.

- 5.26 A member of staff must not engage, for remuneration, in private employment, contract work or other business outside the service of the council if prohibited from doing so.
- 5.27 Members of staff must ensure that any outside employment, work or business they engage in will not:
- a) conflict with their official duties
 - b) involve using confidential information or council resources obtained through their work with the council including where private use is permitted
 - c) require them to work while on council duty
 - d) discredit or disadvantage the council
 - e) pose, due to fatigue, a risk to their health or safety, or to the health and safety of their co-workers.

Personal dealings with council

- 5.28 You may have reason to deal with your council in your personal capacity (for example, as a ratepayer, recipient of a council service or applicant for a development consent granted by council). You must not expect or request preferential treatment in relation to any matter in which you have a private interest because of your position. You must avoid any action that could lead members of the public to believe that you are seeking preferential treatment.
- 5.29 You must undertake any personal dealings you have with the council in a manner that is consistent with the way other members of the community deal with the council. You must also ensure that you disclose and appropriately manage any conflict of interest you may have in any matter in accordance with the requirements of this code.

PART 6 Personal Benefit

- 6.1 For the purposes of this Part, a gift or a benefit is something offered to or received by a council official or someone personally associated with them for their personal use and enjoyment.
- 6.2 A reference to a gift or benefit in this Part does not include:
- a) items with a value of \$10 or less
 - b) a political donation for the purposes of the *Electoral Funding Act 2018*
 - c) a gift provided to the council as part of a cultural exchange or sister-city relationship that is not converted for the personal use or enjoyment of any individual council official or someone personally associated with them
 - d) a benefit or facility provided by the council to an employee or councillor
 - e) attendance by a council official at a work-related event or function for the purposes of performing their official duties, or
 - f) free or subsidised meals, beverages or refreshments provided to council officials in conjunction with the performance of their official duties such as, but not limited to:
 - i) the discussion of official business
 - ii) work-related events such as council-sponsored or community events, training, education sessions or workshops
 - iii) conferences
 - iv) council functions or events
 - v) social functions organised by groups, such as council committees and community organisations.

Gifts and benefits

- 6.3 You must avoid situations that would give rise to the appearance that a person or body is attempting to secure favourable treatment from you or from the council, through the provision of gifts, benefits or hospitality of any kind to you or someone personally associated with you.
- 6.4 A gift or benefit is deemed to have been accepted by you for the purposes of this Part, where it is received by you or someone personally associated with you.

How are offers of gifts and benefits to be dealt with?

- 6.5 You must not:
- a) seek or accept a bribe or other improper inducement
 - b) seek gifts or benefits of any kind
 - c) accept any gift or benefit that may create a sense of obligation on your part, or may be perceived to be intended or likely to influence you in carrying out your public duty
 - d) subject to clause 6.7, accept any gift or benefit of more than token value as defined by clause 6.9

- e) accept an offer of cash or a cash-like gift as defined by clause 6.13, regardless of the amount
- f) participate in competitions for prizes where eligibility is based on the council being in or entering into a customer–supplier relationship with the competition organiser
- g) personally benefit from reward points programs when purchasing on behalf of the council.

6.6 Where you receive a gift or benefit of any value other than one referred to in clause 6.2, you must disclose this promptly to your manager or the general manager in writing. The recipient, manager, or general manager must ensure that, at a minimum, the following details are recorded in the council's gift register:

- a) the nature of the gift or benefit
- b) the estimated monetary value of the gift or benefit
- c) the name of the person who provided the gift or benefit, and
- d) the date on which the gift or benefit was received.

6.7 Where you receive a gift or benefit of more than token value that cannot reasonably be refused or returned, the gift or benefit must be surrendered to the council, unless the nature of the gift or benefit makes this impractical.

Gifts and benefits of token value

6.8 You may accept gifts and benefits of token value. Gifts and benefits of token value are one or more gifts or benefits received from a person or organisation over a 12-month period that, when aggregated, do not exceed a value of \$100. They include, but are not limited to:

- a) invitations to and attendance at local social, cultural or sporting events with a ticket value that does not exceed \$100
- b) gifts of alcohol that do not exceed a value of \$100
- c) ties, scarves, coasters, tie pins, diaries, chocolates or flowers or the like
- d) prizes or awards that do not exceed \$100 in value.

Gifts and benefits of more than token value

6.9 Gifts or benefits that exceed \$100 in value are gifts or benefits of more than token value for the purposes of clause 6.5(d) and, subject to clause 6.7, must not be accepted.

6.10 Gifts and benefits of more than token value include, but are not limited to, tickets to major sporting events (such as international matches or matches in national sporting codes) with a ticket value that exceeds \$100, corporate hospitality at a corporate facility at major sporting events, free or discounted products or services for personal use provided on terms that are not available to the general public or a broad class of persons, the use of holiday homes, artworks, free or discounted travel.

6.11 Where you have accepted a gift or benefit of token value from a person or organisation, you must not accept a further gift or benefit from the same person or organisation or another person associated with that person or organisation within a single 12-month period where the value of the gift,

added to the value of earlier gifts received from the same person or organisation, or a person associated with that person or organisation, during the same 12-month period would exceed \$100 in value.

6.12 For the purposes of this Part, the value of a gift or benefit is the monetary value of the gift or benefit inclusive of GST.

“Cash-like gifts”

6.13 For the purposes of clause 6.5(e), “cash-like gifts” include, but are not limited to, gift vouchers, credit cards, debit cards with credit on them, prepayments such as phone or internet credit, lottery tickets, memberships or entitlements to discounts that are not available to the general public or a broad class of persons.

Improper and undue influence

6.14 You must not use your position to influence other council officials in the performance of their official functions to obtain a private benefit for yourself or for somebody else. A councillor will not be in breach of this clause where they seek to influence other council officials through the proper exercise of their role as prescribed under the LGA.

6.15 You must not take advantage (or seek to take advantage) of your status or position with council, or of functions you perform for council, in order to obtain a private benefit for yourself or for any other person or body.

PART 7 Relationships between Council Officials

Obligations of councillors and administrators

PART 8 Access to Information and Council Resources

Councillor and administrator access to information

- 8.6 Despite clause 8.4, councillors and administrators who are precluded from participating in the consideration of a matter under this code because they have a conflict of interest in the matter, are not entitled to request access to council information in relation to the matter unless the information is otherwise available to members of the public, or the council has determined to make the information available under the GIPA Act.

Councillors and administrators to properly examine and consider information

Refusal of access to information

- 8.8 Where the general manager or public officer determine to refuse access to information requested by a councillor or administrator, they must act reasonably. In reaching this decision they must take into account whether or not the information requested is necessary for the councillor or administrator to perform their official functions (see clause 8.2) and whether they have disclosed a conflict of interest in the matter the information relates to that would preclude their participation in consideration of the matter (see clause 8.6). The general manager or public officer must state the reasons for the decision if access is refused.

Part 4 How may Code of Conduct Complaints be made?

What is a code of conduct complaint?

- 4.1 For the purpose of these procedures, a code of conduct complaint is a complaint that shows or tends to show conduct on the part of a council official in connection with their role as a council official or the exercise of their functions as a council official that would constitute a breach of the standards of conduct prescribed under the council's code of conduct if proven.
- 4.2 The following are not "code of conduct complaints" for the purposes of these procedures:
- a) complaints about the standard or level of service provided by the council or a council official
 - b) complaints that relate solely to the merits of a decision made by the council or a council official or the exercise of a discretion by the council or a council official
 - c) complaints about the policies or procedures of the council
 - d) complaints about the conduct of a council official arising from the exercise of their functions in good faith, whether or not involving error, that would not otherwise constitute a breach of the standards of conduct prescribed under the council's code of conduct.
- 4.3 Only code of conduct complaints are to be dealt with under these procedures. Complaints that do not satisfy the definition of a code of conduct complaint are to be dealt with under the council's routine complaints management processes.

When must a code of conduct complaint be made?

- 4.4 A code of conduct complaint must be made within three months of the alleged conduct occurring or within three months of the complainant becoming aware of the alleged conduct.
- 4.5 A complaint made after 3 months may only be accepted if the general manager or their delegate, or, in the case of a complaint about the general manager, the mayor or their delegate, is satisfied that the allegations are serious and compelling grounds exist for the matter to be dealt with under the code of conduct.

How may a code of conduct complaint about a council official other than the general manager be made?

- 4.6 All code of conduct complaints other than those relating to the general manager are to be made to the general manager in writing. This clause does not operate to prevent a person from making a complaint to an external agency.
- 4.7 Where a code of conduct complaint about a council official other than the general manager cannot be made in writing, the complaint must be confirmed with the complainant in writing as soon as possible after the receipt of the complaint.

- 4.8 In making a code of conduct complaint about a council official other than the general manager, the complainant may nominate whether they want the complaint to be resolved by mediation or by other alternative means.
- 4.9 The general manager or their delegate, or, where the complaint is referred to a conduct reviewer, the conduct reviewer, must consider the complainant's preferences in deciding how to deal with the complaint.
- 4.10 Notwithstanding clauses 4.6 and 4.7, where the general manager becomes aware of a possible breach of the council's code of conduct, they may initiate the process for the consideration of the matter under these procedures without a written complaint.

How may a code of conduct complaint about the general manager be made?

- 4.11 Code of conduct complaints about the general manager are to be made to the mayor in writing. This clause does not operate to prevent a person from making a complaint about the general manager to an external agency.
- 4.12 Where a code of conduct complaint about the general manager cannot be made in writing, the complaint must be confirmed with the complainant in writing as soon as possible after the receipt of the complaint.
- 4.13 In making a code of conduct complaint about the general manager, the complainant may nominate whether they want the complaint to be resolved by mediation or by other alternative means.
- 4.14 The mayor or their delegate, or, where the complaint is referred to a conduct reviewer, the conduct reviewer, must consider the complainant's preferences in deciding how to deal with the complaint.
- 4.15 Notwithstanding clauses 4.11 and 4.12, where the mayor becomes aware of a possible breach of the council's code of conduct by the general manager, they may initiate the process for the consideration of the matter under these procedures without a written complaint.

Part 5 How are Code of Conduct Complaints to be Managed?

Delegation by general managers and mayors of their functions under this Part

5.1 A general manager or mayor may delegate their functions under this Part to a member of staff of the council or to a person or persons external to the council other than an external agency. Consideration of complaints by general managers and mayors

5.2 In exercising their functions under this Part, general managers and mayors may consider the complaint assessment criteria prescribed under clause 6.31.

What complaints may be declined at the outset?

5.3 Without limiting any other provision in these procedures, the general manager or, in the case of a complaint about the general manager, the mayor, may decline to deal with a complaint under these procedures where they are satisfied that the complaint:

- a) is not a code of conduct complaint, or
- b) subject to clause 4.5, is not made within 3 months of the alleged conduct occurring or the complainant becoming aware of the alleged conduct, or
- c) is trivial, frivolous, vexatious or not made in good faith, or
- d) relates to a matter the substance of which has previously been considered and addressed by the council and does not warrant further action, or
- e) is not made in a way that would allow the alleged conduct and any alleged breaches of the council's code of conduct to be readily identified.

How are code of conduct complaints about staff (other than the general manager) to be dealt with?

5.4 The general manager is responsible for the management of code of conduct complaints about members of staff of council (other than complaints alleging a breach of the pecuniary interest provisions contained in Part 4 of the code of conduct) and for determining the outcome of such complaints.

5.5 The general manager must refer code of conduct complaints about members of staff of council alleging a breach of the pecuniary interest provisions contained in Part 4 of the code of conduct to the Office.

5.6 The general manager may decide to take no action in relation to a code of conduct complaint about a member of staff of council other than one requiring referral to the Office under clause 5.5 where they consider that no action is warranted in relation to the complaint.

The resolution of a code of conduct complaint under this clause is not to be taken as a determination that there has been a breach of the council's code of conduct.
- 5.15 Where the general manager resolves a code of conduct complaint under clause 5.14 to the general manager's satisfaction, the general manager must notify the complainant in writing of the steps taken to resolve the complaint and this shall finalise the consideration of the matter under these procedures.

Part 6 Preliminary Assessment of Code of Conduct Complaints about Councillors or the General Manager by Conduct Reviewers

Referral of code of conduct complaints about councillors or the general manager to conduct reviewers

- 6.1 The complaints coordinator must refer all code of conduct complaints about councillors or the general manager that have not been referred to an external agency or declined or resolved by the general manager, mayor or their delegate and that have been referred to them under clauses 5.26 or 5.33, to a conduct reviewer within 21 days of receipt of the complaint by the general manager or the mayor.
- 6.2 For the purposes of clause 6.1, the complaints coordinator will refer a complaint to a conduct reviewer selected from:
 - a) a panel of conduct reviewers established by the council, or
 - b) a panel of conduct reviewers established by an organisation approved by the Chief Executive of the Office.
- 6.3 In selecting a suitable conduct reviewer, the complaints coordinator may have regard to the qualifications and experience of members of the panel of conduct reviewers. Where the conduct reviewer is an incorporated or other entity, the complaints coordinator must also ensure that the person assigned to receive the referral on behalf of the entity meets the selection and eligibility criteria for conduct reviewers prescribed under Part 3 of these procedures.
- 6.4 A conduct reviewer must not accept the referral of a code of conduct complaint where:
 - a) they have a conflict of interest in relation to the matter referred to them, or
 - b) a reasonable apprehension of bias arises in relation to their consideration of the matter, or
 - c) they or their employer has entered into one or more contracts with the council (other than contracts relating to the exercise of their functions as a conduct reviewer) in the 2 years preceding the referral, and they or their employer have received or expect to receive payments under the contract or contracts of a value that, when aggregated, exceeds \$100,000, or
 - d) at the time of the referral, they or their employer are the council's legal service provider or are a member of a panel of legal service providers appointed by the council.
- 6.5 For the purposes of clause 6.4(a), a conduct reviewer will have a conflict of interest in a matter where a reasonable and informed person would perceive that they could be influenced by a private interest when carrying out their public duty (see clause 5.2 of the Model Code of Conduct).
- 6.6 For the purposes of clause 6.4(b), a reasonable apprehension of bias arises where a fair-minded observer might reasonably apprehend that the

conduct reviewer might not bring an impartial and unprejudiced mind to the matter referred to the conduct reviewer.

- 6.7 Where the complaints coordinator refers a matter to a conduct reviewer, they will provide the conduct reviewer with a copy of the code of conduct complaint and any other information relevant to the matter held by the council, including any information about previous proven breaches and any information that would indicate that the alleged conduct forms part of an ongoing pattern of behaviour.
- 6.8 The complaints coordinator must notify the complainant in writing that the matter has been referred to a conduct reviewer, and advise which conduct reviewer the matter has been referred to.
- 6.9 Conduct reviewers must comply with these procedures in their consideration of matters that have been referred to them and exercise their functions in a diligent and timely manner.
- 6.10 The complaints coordinator may at any time terminate the referral of a matter to a conduct reviewer and refer the matter to another conduct reviewer where the complaints coordinator is satisfied that the conduct reviewer has failed to:
 - a) comply with these procedures in their consideration of the matter, or
 - b) comply with a lawful and reasonable request by the complaints coordinator, or
 - c) exercise their functions in a timely or satisfactory manner.
- 6.11 Where the complaints coordinator terminates a referral to a conduct reviewer under clause 6.10, they must notify the complainant and any other affected person in writing of their decision and the reasons for it and advise them which conduct reviewer the matter has been referred to instead.

Preliminary assessment of code of conduct complaints about councillors or the general manager by a conduct reviewer

- 6.12 The conduct reviewer is to undertake a preliminary assessment of a complaint referred to them by the complaints coordinator for the purposes of determining how the complaint is to be managed.
- 6.13 The conduct reviewer may determine to do one or more of the following in relation to a complaint referred to them by the complaints coordinator:
 - a) to take no action
 - b) to resolve the complaint by alternative and appropriate strategies such as, but not limited to, explanation, counselling, training, mediation, informal discussion, negotiation, a voluntary apology or an undertaking not to repeat the offending behaviour
 - c) to refer the matter back to the general manager or, in the case of a complaint about the general manager, the mayor, for resolution by alternative and appropriate strategies such as, but not limited to, explanation, counselling, training, mediation, informal discussion, negotiation, a voluntary apology or an undertaking not to repeat the offending behaviour

- d) to refer the matter to an external agency
 - e) to investigate the matter.
- 6.14 In determining how to deal with a matter under clause 6.13, the conduct reviewer must have regard to the complaint assessment criteria prescribed under clause 6.31.
- 6.15 The conduct reviewer may make such enquiries the conduct reviewer considers to be reasonably necessary to determine what options to exercise under clause 6.13.
- 6.16 The conduct reviewer may request the complaints coordinator to provide such additional information the conduct reviewer considers to be reasonably necessary to determine what options to exercise in relation to the matter under clause 6.13. The complaints coordinator will, as far as is reasonably practicable, supply any information requested by the conduct reviewer.
- 6.17 The conduct reviewer must refer to the Office any complaints referred to them that should have been referred to the Office under clauses 5.20 and 5.27.
- 6.18 The conduct reviewer must determine to take no action on a complaint that is not a code of conduct complaint for the purposes of these procedures.
- 6.19 The resolution of a code of conduct complaint under clause 6.13, paragraphs (b) or (c) is not to be taken as a determination that there has been a breach of the council's code of conduct.
- 6.20 Where the conduct reviewer completes their preliminary assessment of a complaint by determining to exercise an option under clause 6.13, paragraphs (a), (b) or (c), they must provide the complainant with written notice of their determination and provide reasons for it, and this will finalise consideration of the matter under these procedures.
- 6.21 Where the conduct reviewer refers a complaint to an external agency, they must notify the complainant of the referral in writing unless they form the view, on the advice of the relevant agency, that it would not be appropriate for them to do so.
- 6.22 The conduct reviewer may only determine to investigate a matter where they are satisfied as to the following:
- a) that the complaint is a code of conduct complaint for the purposes of these procedures, and
 - b) that the alleged conduct is sufficiently serious to warrant investigation, and
 - c) that the matter is one that could not or should not be resolved by alternative means.
- 6.23 In determining whether a matter is sufficiently serious to warrant investigation, the conduct reviewer is to consider the following:
- a) the harm or cost that the alleged conduct has caused to any affected individuals and/or the council
 - b) the likely impact of the alleged conduct on the reputation of the council and public confidence in it

- c) whether the alleged conduct was deliberate or undertaken with reckless intent or negligence
- d) any previous proven breaches by the person whose alleged conduct is the subject of the complaint and/or whether the alleged conduct forms part of an ongoing pattern of behaviour.

6.24 The conduct reviewer must complete their preliminary assessment of the complaint within 28 days of referral of the matter to them by the complaints coordinator and notify the complaints coordinator in writing of the outcome of their assessment.

6.25 The conduct reviewer is not obliged to give prior notice to or to consult with any person before making a determination in relation to their preliminary assessment of a complaint, except as may be specifically required under these procedures.

Referral back to the general manager or mayor for resolution

6.26 Where the conduct reviewer determines to refer a matter back to the general manager or to the mayor to be resolved by alternative and appropriate means, they must write to the general manager or, in the case of a complaint about the general manager, to the mayor, recommending the means by which the complaint may be resolved.

6.27 The conduct reviewer must consult with the general manager or mayor prior to referring a matter back to them under clause 6.13(c).

6.28 The general manager or mayor may decline to accept the conduct reviewer's recommendation. In such cases, the conduct reviewer may determine to deal with the complaint by other means under clause 6.13.

6.29 Where the conduct reviewer refers a matter back to the general manager or mayor under clause 6.13(c), the general manager or, in the case of a complaint about the general manager, the mayor, is responsible for implementing or overseeing the implementation of the conduct reviewer's recommendation.

6.30 Where the conduct reviewer refers a matter back to the general manager or mayor under clause 6.13(c), the general manager, or, in the case of a complaint about the general manager, the mayor, must advise the complainant in writing of the steps taken to implement the conduct reviewer's recommendation once these steps have been completed.

Part 7 Investigations of Code of Conduct Complaints about Councillors or the General Manager

What matters may a conduct reviewer investigate?

- 7.1 A conduct reviewer (hereafter referred to as an “investigator”) may investigate a code of conduct complaint that has been referred to them by the complaints coordinator and any matters related to or arising from that complaint.
- 7.2 Where an investigator identifies further separate possible breaches of the code of conduct that are not related to or arise from the code of conduct complaint that has been referred to them, they are to report the matters separately in writing to the general manager, or, in the case of alleged conduct on the part of the general manager, to the mayor.
- 7.3 The general manager or the mayor or their delegate is to deal with a matter reported to them by an investigator under clause 7.2 as if it were a new code of conduct complaint in accordance with these procedures.

How are investigations to be commenced?

- 7.4 The investigator must at the outset of their investigation provide a written notice of investigation to the respondent. The notice of investigation must:
 - a) disclose the substance of the allegations against the respondent, and
 - b) advise of the relevant provisions of the code of conduct that apply to the alleged conduct, and
 - c) advise of the process to be followed in investigating the matter, and
 - d) advise the respondent of the requirement to maintain confidentiality, and
 - e) invite the respondent to make a written submission in relation to the matter within at least 14 days or such other period specified by the investigator in the notice, and
 - f) provide the respondent the opportunity to address the investigator on the matter within such reasonable time specified in the notice.
- 7.5 The respondent may, within 7 days of receipt of the notice of investigation, request in writing that the investigator provide them with such further information they consider necessary to assist them to identify the substance of the allegation against them. An investigator will only be obliged to provide such information that the investigator considers reasonably necessary for the respondent to identify the substance of the allegation against them.
- 7.6 An investigator may at any time prior to issuing a draft report, issue an amended notice of investigation to the respondent in relation to the matter referred to them.
- 7.7 Where an investigator issues an amended notice of investigation, they must provide the respondent with a further opportunity to make a written submission in response to the amended notice of investigation within at least 14 days or such other period specified by the investigator in the amended notice.

- 7.8 The investigator must also, at the outset of their investigation, provide written notice of the investigation to the complainant, the complaints coordinator and the general manager, or in the case of a complaint about the general manager, to the complainant, the complaints coordinator and the mayor. The notice must:
- a) advise them of the matter the investigator is investigating, and
 - b) in the case of the notice to the complainant, advise them of the requirement to maintain confidentiality, and
 - c) invite the complainant to make a written submission in relation to the matter within at least 14 days or such other period specified by the investigator in the notice.

Written and oral submissions

- 7.9 Where the respondent or the complainant fails to make a written submission in relation to the matter within the period specified by the investigator in their notice of investigation or amended notice of investigation, the investigator may proceed to prepare their draft report without receiving such submissions.
- 7.10 The investigator may accept written submissions received outside the period specified in the notice of investigation or amended notice of investigation.
- 7.11 Prior to preparing a draft report, the investigator must give the respondent an opportunity to address the investigator on the matter being investigated. The respondent may do so in person or by telephone or other electronic means.
- 7.12 Where the respondent fails to accept the opportunity to address the investigator within the period specified by the investigator in the notice of investigation, the investigator may proceed to prepare a draft report without hearing from the respondent.
- 7.13 Where the respondent accepts the opportunity to address the investigator in person, they may have a support person or legal adviser in attendance. The support person or legal adviser will act in an advisory or support role to the respondent only. They must not speak on behalf of the respondent or otherwise interfere with or disrupt proceedings.
- 7.14 The investigator must consider all written and oral submissions made to them in relation to the matter.

How are investigations to be conducted?

- 7.15 Investigations are to be undertaken without undue delay.
- 7.16 Investigations are to be undertaken in the absence of the public and in confidence.
- 7.17 Investigators must make any such enquiries that may be reasonably necessary to establish the facts of the matter.
- 7.18 Investigators may seek such advice or expert guidance that may be reasonably necessary to assist them with their investigation or the conduct of their investigation.

7.19 An investigator may request that the complaints coordinator provide such further information that the investigator considers may be reasonably necessary for them to establish the facts of the matter. The complaints coordinator will, as far as is reasonably practicable, provide the information requested by the investigator.

Referral or resolution of a matter after the commencement of an investigation

- 7.20 At any time after an investigator has issued a notice of investigation and before they have issued a draft report, an investigator may determine to:
- a) resolve the matter by alternative and appropriate strategies such as, but not limited to, explanation, counselling, training, mediation, informal discussion, negotiation, a voluntary apology or an undertaking not to repeat the offending behaviour, or
 - b) refer the matter to the general manager, or, in the case of a complaint about the general manager, to the mayor, for resolution by alternative and appropriate strategies such as, but not limited to, explanation, counselling, training, mediation, informal discussion, negotiation, a voluntary apology or an undertaking not to repeat the offending behaviour, or
 - c) refer the matter to an external agency.
- 7.21 Where an investigator determines to exercise any of the options under clause 7.20 after the commencement of an investigation, they must do so in accordance with the requirements of Part 6 of these procedures relating to the exercise of these options at the preliminary assessment stage.
- 7.22 The resolution of a code of conduct complaint under clause 7.20, paragraphs (a) or (b) is not to be taken as a determination that there has been a breach of the council's code of conduct.
- 7.23 Where an investigator determines to exercise any of the options under clause 7.20 after the commencement of an investigation, they may by written notice to the respondent, the complainant, the complaints coordinator and the general manager, or in the case of a complaint about the general manager, to the respondent, the complainant, the complaints coordinator and the mayor, discontinue their investigation of the matter.
- 7.24 Where the investigator discontinues their investigation of a matter under clause 7.23, this shall finalise the consideration of the matter under these procedures.
- 7.25 An investigator is not obliged to give prior notice to or to consult with any person before making a determination to exercise any of the options under clause 7.20 or to discontinue their investigation except as may be specifically required under these procedures.

Draft investigation reports

7.26 When an investigator has completed their enquiries and considered any written or oral submissions made to them in relation to a matter, they must prepare a draft of their proposed report.

- 7.27 The investigator must provide their draft report to the respondent and invite them to make a written submission in relation to it within at least 14 days or such other period specified by the investigator.
- 7.28 Where the investigator proposes to make adverse comment about any other person (an affected person) in their report, they must also provide the affected person with relevant extracts of their draft report containing such comment and invite the affected person to make a written submission in relation to it within at least 14 days or such other period specified by the investigator.
- 7.29 The investigator must consider written submissions received in relation to the draft report prior to finalising their report in relation to the matter.
- 7.30 The investigator may, after consideration of all written submissions received in relation to their draft report, make further enquiries into the matter. If, as a result of making further enquiries, the investigator makes any material change to their proposed report that makes new adverse comment about the respondent or an affected person, they must provide the respondent or affected person as the case may be with a further opportunity to make a written submission in relation to the new adverse comment.
- 7.31 Where the respondent or an affected person fails to make a written submission in relation to the draft report within the period specified by the investigator, the investigator may proceed to prepare and issue their final report without receiving such submissions.
- 7.32 The investigator may accept written submissions in relation to the draft report received outside the period specified by the investigator at any time prior to issuing their final report.

 - p) what action or remedy would be in the public interest.
- 7.39 Where the investigator proposes to make a recommendation under clause 7.36(j), the investigator must first consult with the Office on their proposed findings, determination and recommendation prior to finalising their report, and must take any comments by the Office into consideration when finalising their report.

Part 9 Procedural Irregularities

- 9.1 A failure to comply with these procedures does not, on its own, constitute a breach of the code of conduct, except as may be otherwise specifically provided under the code of conduct.
- 9.2 A failure to comply with these procedures will not render a decision made in relation to a matter invalid where:
- a) the non-compliance is isolated and/or minor in nature, or
 - b) reasonable steps are taken to correct the non-compliance, or

- 12.2 Where a complainant publicly discloses information on one or more occasions about a code of conduct complaint they have made or purported to make, the general manager or their delegate may, with the consent of the Office, determine that the complainant is to receive no further information about their complaint and any future code of conduct complaint they make or purport to make.

- 12.7 Clause 12.6 does not override any entitlement a person may have to access to council information under the Government Information (Public Access) Act 2009 or to receive information under the Public Interest Disclosures Act 1994 in relation to a complaint they have made.

Dear Resident

The Council is writing to you to seek your views in the Council's endeavour to make Warialda safer if a bush fire threatens our town in the future.

The Council would like to create a parkland style buffer zone around Warialda, which would assist our fire fighters in the event of an uncontrolled fire front bearing down on Warialda.

The Council's strongly held view is that the greater the cleared zone, the greater the protection.

The Council is not proposing the clear felling of tress but rather the creation of a parkland area retaining the larger native trees, similar to the western entry to Warialda by clearing the pines and undergrowth with continual maintenance to ensure the area remains free of any fire loading material.

Attached with this letter is a copy of the report from SMK Consultants, the consultant working with the Council to develop the protective ring the Council believes is the minimum required.

We would like it to be as extensive as possible in the buffer zone but we also, at the same time, have to be realistic in what is achievable.

The recommendations in the report are contained on pages 27 to 29.

The Council is having trouble gaining the approval it needs to fully implement the attached report's recommendations because of the current legislated restrictions on land clearing.

The Councillors believe that we can win this fight if the Council has the majority support from the residents of Warialda.

Please read the attached information. In around a week's time the Council's staff will be doorknocking and asking you to indicate whether you do or do not support implementing the recommendations in the attached report.

It is extremely important for the Council to know your view on this issue.

Thank you for taking the time to read this correspondence.

Yours sincerely

1 Introduction

Gwydir Shire Council engaged SMK Consultants to assess the Fire Break around the town of Warialda. The following report presents an assessment of the current exposure of Warialda to a significant fire event and recommendations identified to improve the readiness of the town in the event of a fire.

Settlement in Warialda commenced in about 1837 after the Surveyor Alan Cunningham passed through the region on a journey between the Hunter Valley and the Darling Downs in Qld. History indicates that Warialda was the first gazetted town in the northwest slopes of NSW and during these early days, provided the administrative centre for a wide region.

The town has grown into a well-established centre for a large cropping and grazing region. Warialda has a population of approximately 1,300 people and is one of the two major towns in the Gwydir Shire, the other being Bingara. The town is settled within a relatively narrow valley landscape with the surrounds supporting extensive areas of Eucalypt, Cypress and Ironbark woodland.

1.1 Purpose of the Report

The purpose of this investigation is to review existing fire breaks around the Warialda town area and firefighting action plan and readiness in the event of a fire.

Once the existing fire breaks are quantified and assessed, the assessment aimed to determine additional work and appropriate actions required to develop appropriate fire breaks and logistics. Once these matters are determined, an action plan is required to rectify any deficiencies in the fire break and facilities and establish an ongoing plan of management for community actions and ongoing responsibilities. The outcome of the assessment will allow Council to improve the asset protection zone for residences, infrastructure within the Warialda town area and logistical requirements in the event of a fire.

1.2 Scope of Assessment

The scope of this assessment is limited to the town area. This includes land included under Zones IN1 – General Industrial, an area of RU5 Large Lot Residential in the north west sector of the town, RE1 Public Recreation land, an area of RE2 Private Recreation (Golf Course), and RU5 Village. Areas of RU5 to the east of the town area are outside of the scope of this report. Land Zoned as RU5 along the Warialda Rail Road (Allan Cunningham Road) between the Gwydir Highway and Warialda Rail is outside of the report scope, along with Warialda Rail. Other land within the town area includes crown reserves. Some of these reserves are administered by Council and other area are administered by a range of government authorities.

The area of RU5 to the east of Warialda is subdivided into 30 Ha or larger Lots and includes uncleared land used for lifestyle blocks. The RU5 land between Warialda and Warialda Rail is located on mostly cleared grazing or cultivation land with a low bushfire risk.

This report included the following scope of works:

- Stage 1 – Investigate the requirements for a fire break around Warialda and prepare preliminary designs and options.
- Stage 2 – Identification of action plans for the town to prepare for a fire event including management of the surrounding fire break, identification of authorities responsible for land outside of Council control and identification of ongoing actions to maintain the fire break and requirements for the town to respond to a significant fire event.

2 Warialda Town Area

2.1 Locality

Warialda has been built within an enclosed valley of woodland. The town is mostly surrounded by crown reserves which have conserved the woodland and provide a key landscape feature for the town's amenity and character. As the town expanded over time, clearing has historically been limited to the minimum requirements, allowing the houses and infrastructure to have the woodland as part of their backyard. This is a feature of the town that has been identified as a significant social community asset and therefore important characteristic. Figure 1 provides an aerial image of Warialda which highlights the extent of development and the surrounding woodland areas.

The Warialda residential area is built on sloping land. The centre of town is traversed by Warialda Creek which has a general slope of 1.2% to the west. The northern side of Warialda Creek has a slope of between 3% and 4% rising from the creek to the north. The southern half of the town rises up from the creek at a slope of approximately 3.9% with the southern edge of the town area extending to the top of the hill within the surrounding woodland.

There are a series of gullies through the town area which act as remnant vegetation zones within the residential area. The northeast part of Warialda has a small gully running to the east of Market Street which links to Warialda Creek. A gully is located at the eastern end of Queen Street but is mainly outside of the existing residential area. All other small gullies and waterways have been incorporated in the built environment and stormwater system within the town area. The gullies are mostly retained as open woodland and part on the public park system within the town.

The western sector of Warialda includes mostly cleared open flat ground. Infrastructure along this western area includes the sewage ponds, Warialda Creek corridor which is mostly grassland, Racecourse Creek along the north western section of undeveloped residential lots, a cleared power line corridor to the west of West Street, sporting ovals along Mosquito Creek Road and the Warialda Golf Course in the north of Nicholas Street. This northwest sector has a power line corridor through Lot 7003 in DP1121864.

The northeast sector of the town extends into the edge of a woodland area. The woodland links onto a large area of undeveloped Lots and extends to the north along Fairford Road, covering approximately 1,200 hectares with a perimeter of approximately 18 kilometres. Land outside of this has been partially cleared for farming and grazing.

The southern edge of Warialda joins the Warialda State Conservation Reserve which is an extensive reserve of mostly tall woodland. This woodland is traversed by numerous narrow access tracks along the northern edge but only one main north-south track through the middle. The woodland covers an area of approximately 3,500 hectares of rolling hills.

The land surrounding the larger areas of woodland to the west of town has mostly been cleared and is now used for grazing of stock and some cultivation. An overall view of the landscape identifies two larger areas of woodland as the primary source of bush fires that would impact the town area.

There is an extensive network of travelling stock routes (TSRs) through and around the town area. These are administered by Local Land Services. The management of these areas includes issuing of grazing permits and some active vegetation management programs. TSR management within the town area can include input from Council as they also offer an informal recreation area for local residents.

2.2 Council Assets

The Warialda town area has a municipal water supply system which is piped to the majority of houses. The system source groundwater from four (4) bores located within the town area. The bores are fitted with electric pumps which pump water to three (3) main reservoirs. Two reservoirs are located on the southern edge of Warialda. The third reservoir system is located on the northern edge of the residential section of Warialda. All three reservoir systems are located on high ground and therefore can supply water to the town under gravity flow.

The water main system in Warialda extends through the majority of developed streets within the town to service houses and all facilities. The water main system has strategically located Fire Hydrants for use by Council and in the circumstances of a fire. The hydrants can be used to refill water tankers, clean the water mains or provide additional water in the event of a fire.

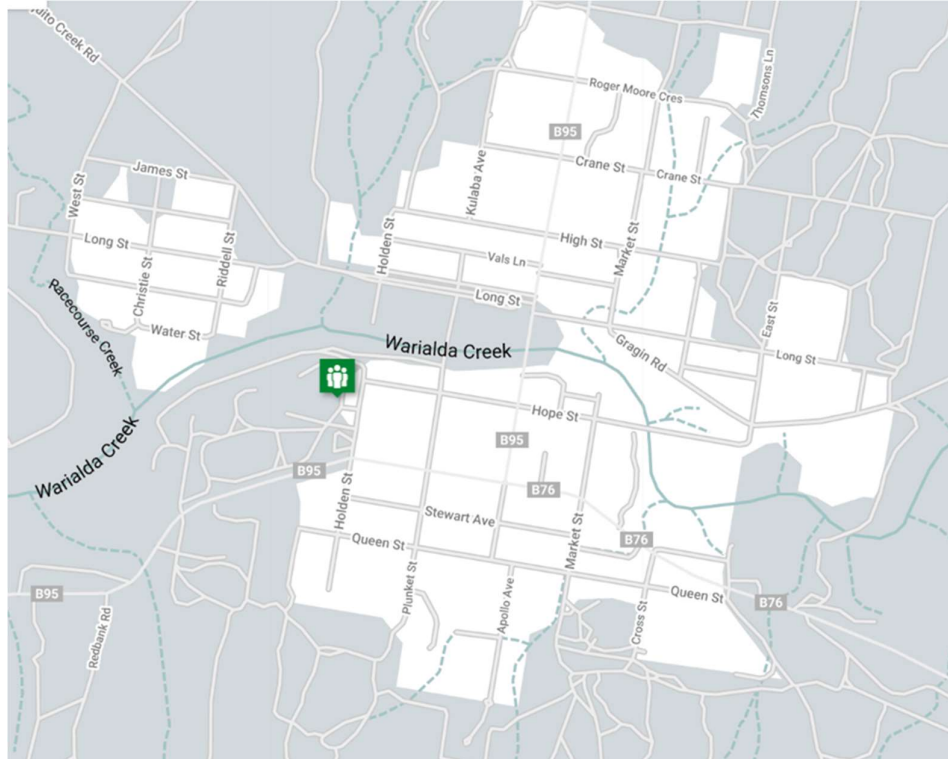

An aerial image of the water hydrant system is presented in appendix 1. Each hydrant is identified within the Council data base system.

It is noted that some signs referring to a **Neighbourhood Safer Place** have been erected. The visibility of these signs appears to be limited as none were identified during this investigation. An investigation of signage and public notification prepared by the South Australian Country Fire Service for rural towns in highly fire prone regions, provides a highly visible system that clearly marks evacuation points. The presence of such signs provides the public, including non-locals with clear directions to emergency evacuation points during a bushfire event. This provides a critical method of notification in circumstances where communication systems are lost.

NSW RFS and Council have selected the Captain Cook Park and adjacent cricket oval as the Neighbourhood Safer Place for Warialda. This is an open area of mown grass sporting ovals with one or more larger pavilion type building to provide shelter. The area is within the "Ember Impact" zone identified by the Warialda Bush Fire Survival Map as a result of the adjoining Warialda Creek which is identified as a "Flame Impact" Zone. The site has extensive short grass APZ surrounds which would minimise the potential of a direct fire hazard.

The following plan has been copied from the NSW RFS website for Neighbourhood Safer Places. To access this map requires the internet via either mobile phone, iPad type device or a computer. Such devices would be available if electricity and telecommunications are available during a fire.

Figure 2: NSW RFS Neighbourhood Safer Places Map for Warialda

An alternative site for the Neighbourhood Safer Place would be the Warialda Public School and oval, which is located within the “Be Aware” zone and adjacent to the main street precinct where the majority of services are available. This site is more isolated from the Ember Impact zone associated with Warialda Creek but has fewer public facilities such as a large pavilion for accommodation of services and evacuees.

The presence of large sign posts to identify the selected travel routes and location of the Warialda Neighbourhood Safer Place is limited at present. This needs to be improved to ensure that locals and non-locals can follow signs to the site in the event of a fire emergency where communications and visibility are limited. It is assumed that road signs could be erected in an emergency. This would depend on whether Council has such signs.

There is no Neighbourhood Safer Place on the northern side of Warialda Creek. It is noted that the Hospital and Aged Care facility has extensive APZs and the services (back-up power supplies) to continue operations in the event of losing power and water. This site would provide an alternative Safer Place on the north side of town in the event that the Stephen Street bridge was made inaccessible.

If equipment and facilities such as food, protective clothing (masks) and temporary shelter is to be provided by Council, it should be located at the Neighbourhood Safer Place.

It is noted that a main communication facility in Warialda located at the southern end of Holden Street adjacent to the southwest water reservoir, is located within the woodland. The structure has no APZ. There is a high risk that this would be burnt in a bushfire which may disrupt phone communications within Warialda. Any plans to maintain local communications

should assume that this facility would be lost in the event of a fire along the southern edge of Warialda.

2.3 Development within Zone RU5 - Village

The majority of the village zone has been developed and occupied by houses and other infrastructure including the hospital, aged care facility and some municipal infrastructure. A large area of relatively undisturbed woodland remains within Zone RU5 in the northeast sector of the town area. This includes land north of Long Street and to the east of Market Street. The woodland within the Zone RU5 area incorporates an area of approximately 54 hectares of land that is mostly retained as crown land and administered by Council.

Large parts of the northwest sector in the Christie Street, Riddell Street and West Street region is subdivided but not developed for houses. The land is mostly used for small grazing paddocks and some cultivation.

RU5 land to the west of the sewage ponds and Nicholson Street are not developed into small lots and support houses on larger parcels of land.

The majority of RU5 Lots along the southern edge of the town are occupied by houses. Approximately six smaller RU5 Lots remain unoccupied by houses along the southern boundary of RU5 land. These Lots appear to be owned by the adjoining houses. They are partly cleared to provide alternative access to the adjoining houses. The High School is located within RU5 zoning. The school area is mostly cleared and supports sporting ovals.

3 Statutory Matters

3.1 Gwydir Bush Fire Risk Management Plan

The Gwydir Bush Fire Management Committee prepared the “Bush Fire Risk Management Plan” (BFRMP) in 2010. This Plan was enacted and forms part of Council policy. Objectives of the BFRMP included:

- Reduce the number of human-induced bush fire ignitions that cause damage to life, property and the environment
- Manage fuel to reduce the rate of spread and intensity of bush fires, while minimising environmental/ecological impacts
- Reduce the community’s vulnerability to bush fires by improving its preparedness; and
- Effectively contain fires with a potential to cause damage to life, property and the environment.

The BFRMP identified risks and a risk assessment process. The report identified Bush Fire Management Zones, mainly:

- Asset Protection Zones (APZ)
- Strategic Fire Advantage Zone (SFAZ)
- Land Management Zone (LMZ)
- Fire Exclusion Zone (FEZ)

The BFRMP resulted in preparation of a Fire Risk Management Plan for the Shire to identify Bush Fire Prone Land.

The BFRMP allows bush fire hazard reduction work to be carried out under the Bush Fires Act 1997, in accordance with planned activities to address the objectives as set out above. The use of fire for hazard reduction would require the authority (Council) to obtain a Bush Fire Hazard Reduction Certificate from NSW RFS.

3.2 NSW RFS

Part of the work of NSW RFS involves assisting with Bush Fire Planning. This can occur on an individual basis or through an authority such as Council and a Bush Fire Management Committee. Part of the work completed through NSW RFS and others to date includes a Bush Fire Preparation Map and a Community Protection Plan for Warialda.

The Bush Fire Preparation Map provides information identified for hazard reduction, property planning and preparedness for bush fire. A copy of the current plan is attached in Appendix 2. The plan presents an action list for local authorities. This identifies the agencies responsible for the action and the level of action required. Critical to this plan, various authorities based on land ownership are required to maintain strategic Fire Advantage Zones outlined in blue hatching on the plan. This covers the forest and grassy woodland that adjoins the perimeter of the town area. The plan also identifies a requirement to maintain a network of existing fire break access roads through the surrounding woodland. The primary roads are marked on the plan and have been identified onsite to remain in a cleared and accessible state. A large part of the land identified within this plan is managed by LLS as stock reserves. Council now administers part of other adjoining crown land. The remainder is held by the Crown as reserve land.

A second map has been prepared by NSW RFS as part of assistance provided to authorities. This map is presented as a Bush Fire Survival Map. The map is presented in Appendix 3. The mapping has identified areas that will be subject to various impacts in the event of a bush fire. The level of impact is summarised below:

- **Flame impact** – Properties directly impacted by fire as the proximity to the surrounding bush will mean that fire and embers will cause damage to the building.
- **Radiant heat impact** – Deadly levels of heat that will impact the property
- **Ember impact** – Impacts from lower levels of heat and significant embers
- **Be aware** – Wind-blown embers can impact the property

The mapping provides a risk assessment for a worst-case fire impact on Warialda. The extent of the zones is generally based on several factors, including vegetation in the adjoining area, slope and aspect of the buildings. The worst case for any building is under a wind or fire movement direction that will result in a fire coming as close to a building as possible. The Bush Fire Survival Map should be used to identify residences and buildings around the edge of Warialda that should be abandoned in the event of a bush fire.

3.3 Bush Fire Attack Level

A review of Warialda identified that the majority of the town area is not exposed to a risk of bush fire due to clearing and a lack of extended remnants of woodland. The review identified that the town perimeter has some bush fire risk due to the proximity of open woodland. In relation to risk, the standard terminology adopted consists of classification of bush fire attack level. This relates to the proximity of a building to the potential source of a fire. The following provides a diagrammatic explanation of Bush Fire Attack level and description of risk:

Source: Bushfire Prone Planning website, 2019

Bush Fire Attack Level

BAL	Description of risk
BAL – LOW	Lowest risk from a potential fire.
BAL – 12.5	Risk is primarily from potential embers during a fire.
BAL – 19	Moderate risk, particularly from embers and burning debris.
BAL – 29	High risk, particularly from embers, debris and heat.
BAL – 40	Very high risk. Likely to be impacted by embers, debris, heat and potentially flames.
BAL – FZ	Extreme risk. Directly exposed to the flames of a potential fire front.

These terms provide a minor duplication and complexity to the terms utilised in the Bush Fire Survival Map. The BAL terms should be utilised for planning purposes for development of houses and other infrastructure in the town area. The BAL terms should be highlighted to house owners during any discussions relating to bushfire preparations.

3.4 Asset Protection Zone (APZ)

Individual properties in NSW have a right to reduce bush fire risk through the RFS 10/50 Vegetation Clearing Code of Practice. The Code indicates the following:

In accordance with Part 4 Division 9 of the Rural Fires Act 1997, a landowner may carry out the following vegetation clearing work on their own land:

- *the removal, destruction (by means other than fire) or pruning of any vegetation (including trees) within 10 metres; and*
- *the removal, destruction (by means other than fire) or pruning of any vegetation, (except for trees) within 50 metres of an external wall of a building containing habitable rooms that comprises or is part of residential accommodation.*

The above measures relating to clearing within their own properties is generally considered exempt under the *Biodiversity Conservation Act 2016* (BC Act) which is the primary article of legislation controlling clearing in NSW. Residents are able to clear within their property boundary. They require permission from adjoining property owners to clear land on adjoining properties. Once outside of the 10m zone from any buildings within the property, only ground cover and shrubs can be cleared. The clearing or lopping of trees will be subject to the BC Act.

The town area of Warialda is included in the 10/50 Code area.

The NSW RFS has a standard process of calculating a minimum width for an APZ. The calculator indicates a minimum APZ of 10m for Warialda based on climate and woodland type in the surrounding area being "Woodland (grassy)". This increases to 20m for a "Forest".

According to NSW RFS, an APZ is defined as:

"Asset Protection Zone (APZ) is referred to as a fire protection zone. Aims to protect human life, property and highly values public assets and values. An area surrounding a development managed to reduce the bushfire fire hazard to an acceptable level. The width of the APZ will vary with slope, vegetation and construction level. The APZ, consisting of an area maintained with minimal fuel loads and, for subdivision, comprising a combination of perimeter road, fire trail, rear yard or a reserve, so that a fire path is not created between the hazard and the building."

4 Bush Fire Hazard Assessment

4.1 Northern Side of Warialda Creek

The eastern bypass road around Warialda has created a fire break consisting of a 22m to 25m clear zone through the woodland to the northeast of Warialda. This is not mapped in the Bush Fire Protection Map as the map was prepared prior to the road being installed. Once complete, the Bypass will provide an outer fire break for the town. The width exceeds the APZ requirement for a Forest Fire but not a "Special Fire Zone" (A Special Fire Zone includes an APZ to protect facilities such as Seniors Living, Tourist Facilities and Schools).

Figure 3: View of northern section of Bypass showing tall forest and clear zone

A second major fire break around the northern side of Warialda has been created by a power line corridor. The power line corridor has a clear width of approximately 17m to 25m. The corridor is subject to variations in shrub and groundcover regrowth and therefore the width varies according to the frequency of maintenance works. The power line passes through vegetation that can be described as tall forest and grassy woodland. The power line corridor would reduce the risk of a fire accessing the perimeter woodland around Warialda but would not stop a forest fire.

Figure 4: Typical clear zone along power line corridor. Historical fires have jumped this fire break due to low shrubs and cypress sucker growth within the corridor.

The network of fire break roads through the woodland on the northern side of Warialda has limited value in that their average width is less than 10m and trees overhang the whole road in many places. These roads could be used as access in the event of a fire.

The Golf course, Nicholson Oval and open cleared land along the western end of James and West Street area provide a clear zone with an APZ in excess of 60m for the northwest sector of Warialda. The area would be subject to mainly Ember Impact and only limited Radiant Heat impact in the event of a fire, assuming that the grass within the APZ is kept short by mowing or grazing. The houses in the central part of James Street would be considered to have a BAL – 29 or less.

Figure 5: West Street looking south along power line corridor with cleared link to Gwydir Highway

Houses at the northern end of Kulaba Avenue have a limited APZ width as the woodland has been retained in this part of Warialda. The majority of buildings have an APZ zone of 10m of clear ground within their property, but the trees extend within 20m. It is recommended that ground cover is controlled within 20m of all buildings and the surrounding woodland. The alternative is for Council to clear the west end of J. A. McGregor Drive (west of Stephen Street) and make a clear zone connection to the north end of Kulaba Avenue.

Properties along the northern edge of Warialda have been built within bushland. Most have APZs greater than 20m, but these zones include tall grass and shrub areas. Lot 370 in DP 704628 (15 JA McGregor Drive) is built within the woodland and has no APZ for a woodland fire.

Houses at the east end of Roger Moore Crescent have a road that is cleared around the outside of their properties which links to the south with Crane Street. The timber is tall; however, ground cover is mostly cleared. This road needs to be maintained as a clear zone by Council. The houses would be prone to High Radiant Heat during a Bush Fire Threat. The risk would be from a crown fire in the tall trees.

Figure 6: Looking north from Crane Street showing track around to Roger Moore Crescent.

The residence within Lot 2 DP61677 (134 High Street) has been built within the woodland area and has little or no APZ. The woodland extends into the building area within the property boundary, but the house has no surrounding ground cover at present. The proximity of the tall trees would increase a Bush Fire Threat to this residence to a “Flame Impact” level and/or a BAL – 40 risk. This is similar to the eastern three residences in Long Street which have an APZ zone in the backyards of 15m to 20m but have tall dense woodland in close proximity.

Figure 7: 134 High Street residence with limited APZ

The Warialda Hospital and Naroo Frail Aged Care Facility are included under special fire protection due to requirements for assisted evacuation and special needs of residents. The 2017 Bush Fire Survival Map has identified the hospital within an ember impact zone (BAL-19) but the Naroo facility had woodland closer to the eastern boundary and risk increased to potential flame impact (BAL-40) or higher.

Work has been done to increase the APZ between these two facilities. The following image shows the clear zone around Naroo which measures to over 60m between the natural woodland and the garden area on the eastern edge of the facility. This is considered as satisfactory but both properties would be at risk of ember impact if the adjoining woodland was on fire. The adjoining woodland connects to a large area of woodland and as discussed above, the available fire breaks are limited to small fires and not major fires.

Figure 8: Fire break around east and northern sides of Naroo Aged Care and Warialda Hospital

The remainder of northern Warialda residences are generally protected by municipal roads or have clear zones around the houses.

The prime infrastructure asset in northern Warialda is the electrical substation. The facility has 10m or more clear zones within the main substation area. The surrounding area consists of crown reserves administered by either Council or others. The area supports grass and shrub growth which would be prone to fire and difficult to access. The following images show the areas of concern in the middle of a drought. This highlights the uncontrolled growth that would present a risk of impact to this facility. Rough tracks are available to access these areas, but no formal fire break is present. Similar vegetation extends to the south to J A McGregor Street which would expose the Council depot to ember impact.

The Council depot would be a critical facility in the middle of a bush fire. The main building is approximately 70m from the closest area of woodland. This is considered to exceed the recommended APZ width. Equipment and minor buildings around the perimeter of the depot would be exposed to fire and heat impact under current vegetation conditions. It is recommended that a localised fire break is formed around the outside of the eastern security fence to allow fire control access in this area to protect flammable materials such as bitumen, diesel, plastic materials or waste oil storages.

Figure 9: Photos of reserve areas around Warialda Substation on Warialda Road

4.2 South Side of Warialda Creek

The southern side of Warialda borders onto an extensive area of woodland. The understorey includes areas of low shrubs and grass. A network of unofficial vehicle tracks has been created along the southern edge of the town area which create fire breaks to a width of 10m or less. These tracks would reduce the risk of a ground fire causing damage to property but have minimal impact in the case of a bush fire which engulfs the woodland. Council occasionally grades these tracks.

The southeast sector of Warialda, east from Cross Street, includes larger Lots which are used for grazing of stock or gardening. The houses along the eastern edge of Cross Street have a clear zone at the rear of the houses and Cross Street itself to provide an APZ outside of the property boundary. The houses to the south of Queen Street between Cross and Market Street have some woodland connectivity in their backyards but remain mapped as having potential Flame Impact (BAL-40) in the event of a fire due to the connectivity to the large area of woodland to the south. It is recommended that a clear fire break be established using one of the east-west tracks in the bush to the south of these houses to form a connection between the most eastern house on Lot 4 in DP801691 (99 Queen St) and the southern end of Apollo Avenue. This would isolate the woodland area that extends into the back of these houses.

It is noted that the Flame Impact Zone associated with Warialda Creek extends onto the Warialda Road, between Cross and Market Streets along the northern edge of the Gwydir Highway. It is also noted that a Fuel depot is located within the Flame Impact Zone. The fuel depot is upslope of a potentially high fire fuel zone being Warialda Creek. At present the creek bank supports a range of unmanaged vegetation. The fuel depot would be regarded as a highly flammable essential service and therefore should be contained within a larger APZ zone. The land between the Depot and the Creek area is partly Council land (road reserve) and crown land (creek reserve). Council (and possibly the fuel depot owner) should jointly manage an APZ zone around the fuel depot.

The High School and associated buildings have a clear zone of 50m or more in addition to cleared tracks around the edge of the property within the adjoining reserve area. This is

considered acceptable as the clear zone generally exceeds the minimum for a woodland area. The clear zone/APZ for a woodland is 40m according to the RFS APZ calculator.

The Southern Reservoir is an important asset. At present, the property has a 10m APZ around the external fence, but shrub growth has become extensive within the property. The entrance road and access road around the concrete reservoir is maintained in a clear condition, however the property would be impacted by embers and therefore the surrounding shrubs as identified in the following photograph would burn and may damage external structures on the reservoir. It is therefore recommended that a 20m APZ is maintained around the reservoir.

Figure 10: Southern fence of Southern Reservoir showing shrub growth within the reservoir compound.

The residence at the southern end of Plunkett Street has been built within the woodland. The house itself has an APZ of 10m to 15m in width which is suitable for a woodland (grassy) region. The residents maintain an additional gravelled access along their southern boundary. The Bush Fire Preparation Map recommends that the southern edge of this house actively undertakes hazard reduction, but the house remains exposed to potential Flame Impact in a bush fire. The existing area of gravelled pavement is considered acceptable to reduce risk, but the residence would remain exposed to ember impact and potentially radiant heat. A recent fire was evident in this area.

Figure 11: Clear zone to south of southern residence in Plunkett Street.

Council's Southern Water Tower is accessed via Plunkett Street. The tower is located within a fenced area. The groundcover within the fenced area is maintained as a clear zone of approximately 15m or more to the east, south and west. The tower and associated infrastructure may be exposed to fire and possible ember issues along the northern side. Additional clearing and maintenance of ground cover is required to protect this asset.

A communication tower is located to the immediate south of the southern water tower. This communication tower has no APZ and is located within dense woodland. This structure remains part of the communications system for Warialda. In the event of a bush fire, the structure would be destroyed as access would be difficult and the tower is surrounded by similar woodland. This is a potential key asset that would be lost during a bushfire approaching the southern edge of Warialda and therefore any communications systems it provides would be lost.

Houses at the southern end of Holden Street adjoin the woodland area on an escarpment. The top of the escarpment is higher than the houses and there is a clear zone of more than 15m around the two houses at the end of the street. Due to the topography (downslope from woodland) the houses are considered as ember prone (BAL-19) and not at risk of Flame Impact.

Houses on the western side of Holden Street (south of Queen Street) back onto a strip of woodland. The houses are upslope of the woodland and therefore at higher risk in the event of a bush fire in this woodland. The strip of woodland is an average of 50m in width and therefore a minor risk. The houses have a 10m APZ along their western boundary in addition to the APZ of up to 40m or more from the western boundary of each property.

Figure 12: Clear zone along west boundary of Lot C/407998 looking south

Warialda Motel and the houses to the west are located in relatively open clear areas maintained with short grass by Council and others. In this condition, the fire risk is considered relatively low other than ember impacts. The grass cover should be kept in such a condition as the area adjoins an extensive woodland to the south and west.

Figure 13: APZ along boundary of Lot 167/751137 looking toward Motel

Warialda has a municipal water supply. The presence of hydrants did not seem to be clearly marked and highly visible to the general public. For example, a hydrant was located within long grass at the southeast end of Market Street. The hydrant had no visible marker. The location of this fire hydrant system is outside of the scope of this report but is noted as a matter for action in section 6 of this report.

4.3 Crown Land Around Warialda

Warialda town area is surrounded by Crown Land include Travelling Stock Routes and Crown Reserves.

In 2018, Council signed a new Licence agreement with the Crown to manage this land. A copy of the Crown Licence Plan is attached in appendix 4. Under Schedule 2 Terms and Conditions, Condition 4 states:

“Hazard Reduction – Fuel load must be maintained on licenced area as per approval Warialda Community Protection Plan (Gwydir BFMC)”.

Under this condition, Council has the legal right and responsibility to manage the fuel load within the Crown area under this agreement. A map showing the strategic areas identified with the Gwydir BFMC is also presented in Appendix 4. The areas shaded as “yellow” represent critical hazard reduction areas which need to be maintained with a low fuel load (grass, shrub layer) to reduce the potential for fires to enter the residential part of Warialda.

Crown land management differs between land held under the 2018 Crown Licence and TSR land managed by Local Land Services (LLS). Council has the authority to manage the land subject to the 2018 Crown Licence. TSR adjoining the town area is controlled by LLS. Permission is required from LLS to undertake any clearing work within TSR.

LLS services have the responsibility of managing the TSRs. At present, this is done by mainly grazing and weed management programs. LLS currently allow the clearing of a 6m wide APZ around the town limit. This is allowed to extend to a practical level of clear zone to enable access for clearing. Any additional clearing such as clearing of 10m or wider zone of forest or grassland is subject to approval from LLS Vegetation officers under the LLS Regulations. Contact must be made with LLS officers to discuss options for any additional clearing. The option of including an LLS officer on the Warialda Fire Break Committee should be investigated on the basis that the LLS is a significant landowner in the local area and manage some critical areas of vegetation adjoining the town boundary.

4.4 Electricity Supply Lines

Major power lines are present along the eastern, northern and western parts of the north side of Warialda. The smaller power lines are administered by Essential Energy. The major power lines are administered by TransGrid. Each supplier has scheduled vegetation maintenance programs.

Based on preliminary knowledge, Essential Energy has a 2-year cycle of vegetation management along power line corridors and TransGrid have a 3-year cycle of vegetation clearing. The clearing is generally limited to tree lopping and sucker management to maintain a 10m to 20m corridor on either side of the power line. The works do not necessarily include grass and shrub management unless these are impeding road access to the power lines.

5 Discussion

Warialda has some unique features in relation to bush fire events. These are highlighted by the Bush Fire Survival Map. There are four standards of threat included in the Survival Map. The town is surrounded by areas that have been mapped as “Flame Impact” prone. The majority of the town is mapped as prone to “Ember Impact”. The central zone of the town between the main street and west to Holden Street is classified as an area to “Be aware” of embers which could be considered as a BAL-Low area. This would provide a central area for an evacuation facility.

The remainder of the town extends to the edge of a large woodland and forest surrounding the town. Mapping predicts that Flame Impact would occur on all perimeter areas resulting in loss of houses and infrastructure.

Warialda Creek provides an avenue for fire into the central part of the town, including a potential to encroach the central Stephen Street bridge over the creek. In such circumstances, the town may be separated into two parts with limited access. On this basis, two options are available. Option 1 would be to ensure that the vegetation in the creek is managed and kept in a condition of low fuel hazard. Option 2 would be to provide **Neighbourhood Safe Places** on either side of the creek.

Option 1 is preferable, and it is noted that Council has a landscaping project that includes mowing along the creek area between Plunket Street pedestrian access and the Hope Street low bridge. Option 1 would protect the main bridge and therefore provide access for residences to a central evacuation point in the main street area and Captain Cook Park.

This investigation has identified a network of formal and informal fire breaks around the town area including an eastern Bypass and power line corridors to the north. These cleared zones would provide access to control fires as well as fire breaks to stop fires or reduce their encroachment on the town area. The majority of these fire breaks are located within “Forest areas” which have the highest risk of an intense fire and therefore require additional widths of APZ than the roads and tracks provide. The width of some of these fire breaks is limited to 5m or less when overhanging trees are accounted for.

(It should be noted that this investigation has been undertaken during a period of extensive drought and therefore groundcover was limited. The normal level of ground cover growth (grass, shrubs) could not be quantified in detail.)

Several areas of bushland within the town perimeter require some modification to improve asset protection zones. A review of historical aerial images indicates that some of this work has been done in the past 5-years or less. In particular, work around the hospital and aged care facility has now established an appropriate APZ. Other areas of Council managed land have been identified as requiring treatment.

It should be noted that the surrounding forest includes tall trees where the risk of a crown fire under extreme conditions may not be controllable until it reaches a clear zone or managed forest area of more than 150m in width. In such an event, the Bush Fire Survival Map should be utilised as a core management tool for decisions on evacuation and fire

control. In such an event, the identified Neighbourhood Safe Place would need to be identified and become operational within a short period for local and visitors to the town.

The Bush Fire Preparation Map that has been prepared for Warialda, presents important actions that need to be undertaken to minimise the risk of a bush fire entering the town area.

The issue of smoke and ash hazard during a bushfire should be highlighted. Smoke and ash will potentially fill the town area during a major event. This will result in poor visibility and have severe health implications. Poor visibility will limit the movement of traffic in the town and the visibility of sign posts directing people to evacuation points. The sizing and location of sign posts such as directions and locations to the Neighbourhood Safer Place and any Bushfire Last Resort Refuges needs to be considered for conditions of severe smoke hazard.

During a period of Smoke hazard, the option of providing masks needs to be considered. The minimum standard mask would be a P2 mask. This may assist in reducing health issues created by smoke, embers and ash. Local shops may carry a limited supply of such masks and therefore Council should aim to provide a supply of masks in the event of a fire.

Recent catastrophic fires have identified numerous issues with fire planning. Some of these issues are identified in the following table.

Table 1: Matters identified for consideration as a result of 2019-2020 catastrophic fire events in Australia

Issue	Comment
Electricity	There is a high probability that electricity lines would be damaged in the event of a significant fire. This would result in reduced water and essential services such as electricity for pumping of fuel at local service stations or maintaining basic essential services. Identification of alternative supplies to essential services should form part of the Bush Fire Management planning. This may include a requirement for local service stations and other facilities to have back-up generators in addition to Council providing a suitable generator for the Neighbourhood Safer Place. This would also be required to recharge electrical communication devices.
Phone services - communications	Mobile and landline phone systems will be essential during a bush fire event. Part of the system is currently exposed as it is located in woodland and has no APZ. It is therefore essential to identify requirements to maintain phone services as residents will rely upon phones for information (internet/emergency communication) during a fire event.
Water	Several days of water are stored in reservoirs at present. These are filled from bores. It would be essential to identify the security of the bores including power supply to the bores and the bore infrastructure.
Additional services for evacuees and others	In the event of a significant fire, an additional population may be trapped in Warialda. Services including water, food and short-

Issue	Comment
	term accommodation should be identified for a potential increase in the normal population for Warialda, including an influx of fire fighters and volunteers.
Radio – FM/AM services	The use of FM or AM radio transmissions to the local community has been identified as one of the final communication services if local telecommunication services are lost. It would therefore be essential to secure portable/battery powered radios/wirelesses as a means of communications and public advisory service.
Fuel for vehicles	In the event that electricity is not available, fuel storages will require back-up electricity to provide fuel for locals and visitors. This will include the Council depot, local fuel stations and other facilities (Roger Moore Fuels). Access to fuel for residents, visitors and fire fighting related equipment will be essential.

On the basis of this investigation, the issue of Council being able to manage the forest in a 150m wide zone around the town and key assets needs to be considered. Management in the form of hazard reduction, removal of excessive ground cover, shrub and sucker growth in addition to lopping and selective thinning of mature trees needs to be considered. If a 150m wide managed vegetation zone can be achieved, the potential for a forest fire to reduce to a smaller fire may be achieved as a result of significant reduction in vegetation density whilst retaining the native vegetation and biodiversity values within the 150m management zone. Management within this 150m zone would also retain the landscape characteristics around the town without having a complete clear zone of 50m to 60m adjoining residences and key assets, this losing the ambience of the timbered landscape that has been preserved as part of Warialda.

The plan presented in appendix 5 provides an outline of the recommend 150m managed vegetation zone. The difficulty with this zone is that it is mostly crown land in the form of TSR or part of the Crown Lease held by Council. Current legislation would severely limit the potential for Council to undertake management within this zone due to the statutory limits controlling the departments who manage this crown land. This includes the Local Land Services and Crown Lands. At present, Council has not exemptions to undertaken vegetation management within the crown land to achieve the required protection zone around Warialda.

Obtaining permission to manage this Zone is considered an **urgent** and key outcome if Council is to achieve a suitable buffer around Warialda to be able to protect the town during a significant fire. To date, conversations with Local Land Services and Crown Lands has indicated a significant degree of process and legislative difficulty in allowing Council to obtain permission to establish a 150m wide management zone around the town due to statutory limitations resulting from current legislation including the Biodiversity Conservation Act 2016, the Local Land Services Act 2013 and it is assumed the Crown Land Management Act 2016.

Without the necessary exemptions, these Acts and associated regulations prevent Council from achieving their Duty of Care to protect the township of Warialda from a forest fire event.

6 Recommendations and Actions

The following section provides recommendations for actions to occur to improve the readiness of Warialda during a fire event.

6.1 North Side

The following provides a list of items identified for action on the ***northern side*** of Warialda.

Table 2: Actions Required for Northern Warialda

Item for Action	Action Required
Eastern Bypass	Maintain a 20m clear zone including lopping of trees and clearing of ground cover.
Northern Power Line Corridor	Clear ground cover and sucker regrowth along edge of corridor to maximise effective fire break width of corridor. Responsibility of Essential Energy and TransGrid.
Northern fire breaks marked on Bush Fire Preparation Map	Maintain the Fire trails marked as Magenta and Yellow on the Bush Fire Preparation Map as critical for fire access and as fire breaks.
Northern electrical substation and critical assets	Create a clear zone of no grass in the form of a fire break road to further protect the substation on Warialda Road and improve the protection of the Council Depot. Liaise with Essential Energy to improve their APZ.
Residences with frontage to woodland areas	Provide residents with frontage (backyards) as identified in this report with information or directions to create appropriate APZs.
Hospital and Aged Care Facility	Ensure that the APZ to the east of the hospital and aged care facility is maintained as short grass to provide a minimum of 60m of clear zone to the adjoining woodland.
Fire Hydrants	Mark key fire hydrants with clear identification and protection structure (posts) and a 10m APZ zone to allow access for emergencies.
Clearing requirements – short term	Council to reviewing clearing of west end of J. A. McGregor Drive (west of Stephen Street) and make a clear zone connection to the north end of Kulaba Avenue.
Council depot	It is recommended that a fire break is formed around the outside of the eastern security fence to allow fire control access in this area.
Open grassland management	Clear and slash grassland between Electricity substation and 161 Warialda Road to formalise northern edge fire break.

6.2 South Side

The following provides a list of items identified for action on the ***southern side*** of Warialda.

Table 3: Actions Required for Southern Warialda

Item for Action	Action Required
Southern Reservoir	Create a 20m APZ around the southern reservoir by removing shrub growth within the compound and maintaining >10m APZ outside of the boundary fence.

Item for Action	Action Required
Southern Water tower	Create a 20m APZ around the southern water tower by controlling shrub growth within the compound and maintaining >10m APZ outside of the boundary fence.
Southern communication tower	Establish details of what communications it provides and whether an APZ can be established around the facility. (Land located within TSR – Contact LLS) Subject to approval, create a >10m APZ around the structure, including removal of trees within this zone to ensure communication from this facility are maintained during a bushfire. Liaison with Telstra required.
Southern fire breaks marked on Bush Fire Preparation Map	Maintain the Fire trails marked as Magenta and Yellow on the Bush Fire Preparation Map as critical for fire access and as fire breaks.
Fire Hydrants	Mark key fire hydrants with clear identification and protection structure (posts) and a 10m APZ zone to allow access for emergencies.
Clearing of existing tracks	It is recommended that a clear fire break be established along an east-west track to form a connection between the most eastern house on Lot 4 in DP801691 (99 Queen St) and the southern end of Apollo Avenue.

6.3 General Recommendations

The following presents recommendations for general actions to be instigated by Council and the community to improve fire safety and preparedness within the Warialda town area and immediate surrounds.

Item for Action	Action Required
150m Vegetation Management Zone around Warialda	Obtain approvals or exemptions to allow Council to manage the vegetation within a 150m zone around the edge of Warialda residences and key infrastructure from Crown Lands and the Local Land Services.
Evacuation centre equipment	Establish a suitable stockpile of equipment required for an evacuation centre including P2 dust masks, potable water, food, accommodation and communication equipment.
Evacuation signs	Establish sufficiently sized sign posts to direct residents and visitors to the Neighbourhood Safer Place. Signs to provide directions from north and south sides and be highly visible.
Annual inspections	Undertake annual inspections of residences and infrastructure around the edge of the urban and industrial fringe of Warialda to check on fuel loads that may exceed acceptable levels and therefore require management.

Item for Action	Action Required
General maintenance of vegetation within town area – Parks and Warialda Creek	Undertake a review of clearing and management of grass and tree growth within Warialda Creek between Philp Street to the east and the Neighbourhood Safer Place to the west (Captain Cook Park).
Fire Hydrants	Introduce an “Adopt a Fire Hydrant Policy” involving neighbours adjoining a fire hydrant along the edge of a critical fire hazard zone to clear and maintain the visibility of the fire hydrant. Maintain a 10m APZ around fire hydrants on the edge of the residential area.
Local Land Services	<p>Maintain contact with Local Land Services who are responsible for maintaining stock reserves adjoining the town area. Purpose will be to liaise with LLS officers to control fuel loads on reserves by grazing, cold burns or clearing/slashing.</p> <p>The option of including an LLS officer on the Warialda Fire Break Committee should be investigated.</p>
Warialda Fire Break Committee	The Warialda Fire Break Committee to be responsible for maintenance actions identified in this report, including proactive control measures to reduce fuel loads within the town and surrounding area by direct action or maintaining contact with the relevant authorities who are legally obliged to undertake appropriate fire management actions. The committee would also be responsible for operations of the Neighbourhood Safer Place until other authorities (NSW RFS) were required as a result of a fire.

What is Your Bush Fire Threat?

- Flame Impact** (Red icon): You and your property are likely to be directly impacted by flame, deadly levels of radiant heat, significant embers and smoke from a bush fire. The risk of death and property destruction from bush fire is greatest in this area. Leaving early is your safest option.
- Radiant Heat Impact** (Orange icon): You and your property are likely to be impacted by deadly levels of radiant heat, significant embers and smoke from a bush fire. You and your property must be well prepared if you choose to stay and defend.
- Ember Impact** (Yellow icon): You and your property are likely to be impacted by lower levels of radiant heat, significant embers and smoke from a bush fire. You and your property must be well prepared if you choose to stay and defend.
- Be Aware** (Light Green icon): Embers can cause fire kilometres from the main fire and can impact on houses up to one hour before the fire arrives and several hours after the fire has passed. It only takes one ember to ignite your house and property. Ensure that you and your property are well prepared and monitor your property carefully during a bush fire.

- Neighbourhood Safer Place** (Green icon): Neighbourhood Safer Places are a place of last resort if you are unable to leave early and a neighbourhood safer place can offer some protection to your home.
- Main Road** (Grey icon): Roads may become impassable during a bush fire. Your safest option is to leave early.
- Leave Early** (Blue icon): Your nearest NDP is located at Warialda Neighbourhood Centre, 100 Gwydir Highway and Hobbs St. City Gwydir Highway and Hobbs St.
